Subject: RE: PP130, PP150 & Outfitter II

Importance: High

Hi Corie,

Thank you for your request to renew the above-referenced models. Our review process starts when the manufacturer submits a complete submission. With that in view, please submit a signed letter requesting the Agency renew your Certificate of Compliance. The letter should indicate the affected model line, certification number, and a compliance statement. It should state whether modifications have been made to the stove since the last EPA certification. If no change since the previous EPA certification has been made, the manufacturer may request a potential waiver from certification testing. That is, affirm in your letter that no changes have been made to the stove, and therefore, you are seeking a recertification waiver from the Agency.

See below: 60.533.

(i) Renewal of certification.

(1) The manufacturer must request renewal of a model line's certificate of compliance or recertify the model line every 5 years, or the manufacturer may choose to no longer manufacture or sell that model line after the expiration date. If the the manufacturer chooses to no longer manufacture that model line, then the manufacturer must submit a statement to the Administrator to that effect.

(2) A manufacturer of an affected wood heater model line may apply to the Administrator for potential renewal of its certificate of compliance by submitting the material specified in paragraph (b) and following the procedures specified in paragraph (f) of this section, or by affirming in writing that the wood heaters in the model line continue to be similar in all material respects that would affect emissions to the representative wood heater submitted for testing on which the original certificate of compliance was based and requesting a potential waiver from certification testing. The application must include a copy of the review of the draft application and approval by the third-party certifier.

If you have any questions, please let me know.

Rafael & Robert

It's been a few weeks on this submission and I haven't heard anything yet. I just wanted to follow up and see if you'd had a chance to review and any concerns/questions you might have for me.

Thank you

Subject: PP130, PP150 & Outfitter II

All,

Please find within the Dropbox the application, Non-CBI report, CoC and CBI letter for the PP130, PP150 & Outfitter II. These are the updates to the EPA Cert #128-18. We have also sent all necessary documentation via certified mail which you should receive shortly.

Please use the link below to gain access to the files.

Ex. 4 CBI

If you have any questions please feel free to contact myself, Bud or Corie.

Thank you!
